STAT

Attached is a paper that was prepared for John on the subject of secrecy in government, which you might find useful.

I have included a copy of John's testimony before the House Permanent Select Committee on Intelligence regarding the Freedom of Information Act (FOIA) relief legislation. In his testimony, he outlines the burdens that FOIA imposes on the Agency and how the proposed relief legislation, which has already passed the Senate, will alleviate some of the burdens. A copy of the Senate Select Committee on Intelligence Report on the FOIA Relief Bill that passed the Senate is also attached for your information.

As you may know, I will be seeing the [] on 27 February. Can't promise anything but will give it a fair shake. Cheers,
